SIGNAL NAV AND FIRE UTILITY KIT

Ultimate Survival™ Para 550™

This heavy-duty paracord bracelet includes 7 feet of 550 lb. test cord. Easy to unravel, the uses are endless.

Cyalume® ChemLights®

Lightweight and durable, 4" ChemLights are recommended for marking routes, clearing areas, vehicle lanes, night patrol, combat operations, and survival. Individually foil-wrapped for light/moisture protection. Green sticks provide up to 6 hours of illumination.

Suunto™ MB-6 Compass

A feature-packed compass in a handy matchbox style case, the MB-6 is a combination of a hand bearing and base plate compass. It features an adjustable declination correction scale, easy-to-read luminous markings, and a clinometer. Balanced for the northern hemisphere.

BlastMatch™ Fire Starter

The BlastMatch™ one-handed fire starter creates a stream of sparks three times as hot as a standard match and works in all weather conditions. At the center of the BlastMatch™ is a custom bar of high performance flint material. A tungsten carbide striker built into the striker button is positioned at the exact angle for maximum sparks.

JetScream™ Whistle

The JetScream™ Whistle is a low profile, pea-less whistle for survival, safety, and communication purposes. This exceptional whistle focuses manmade air streams through harmonically tuned chambers to produce a piercing shriek audible over most natural and manmade noises.

Coast™ TX10 LED

The TX10 tactical LED light has four colors: white, red, green and blue - each controlled by a separate switch. A lightweight aluminum casing offers great durability and will hold up to heavy daily use. 8 hour and 15 minute runtime on 3 AAA batteries.

StarFlash® Signal Mirror

Over 90% as reflective as glass yet far lighter, this mirror has a scratch-resistant coating and floats.

SOG® Pocket PowerPlier™

Packed with essential tools that include pliers/grippers, wire cutters, partially serrated blade, small/large screwdrivers, Phillips screwdriver, three-sided file, can opener, bottle opener, awl, rulers, lanyard and heavy duty nylon pouch.

SOG® Trident TiNi™

The SOG Trident uses the S.A.T. (SOG Assisted Technology™) opening mechanism. There is a built-in safety to lock the blade closed. The Trident has the patent pending Groove™ in the handle, which allows the operator to cut paracord, fishing line, etc. without having to open the blade.

WetFire™ Tinder

WetFire™ can get a blaze going even in a downpour. The cubes can burn wet or dry. WetFire™ Tinder is individually packaged in a lightweight solid cube form and burns at over 1300 degrees. It cools almost instantly when snuffed out and can be relit.

Ultimate Survival™ Delta™ Lighter

By adding a tough elastomer wrap, the Delta Shockproof lighter has all the stormproof qualities you expect plus incredible impact resistance. The Delta lighter features a stainless steel wire closure to stay watertight even if dropped. Uses quadruple-refined butane fuel.
